General Terms and Conditions of Sale and Delivery
of RTS Electronic GmbH

As of: October 2026

This is a convenience translation. In the event of any discrepancy, the German language version shall prevail.

§ 1 Scope of Application

1.1 These General Terms and Conditions of Sale and Delivery (hereinafter "GTC") shall apply to all present and future deliveries, services and offers (hereinafter "Business Relations" or "Transactions") of RTS Electronic GmbH (hereinafter "RTS") to buyers. They shall apply exclusively to entrepreneurs within the meaning of § 14 of the German Civil Code (BGB), legal entities under public law or special funds under public law (hereinafter "Buyer").

1.2 The Buyer's terms and conditions shall only become part of the contract if and to the extent that RTS has expressly agreed to their applicability in writing. This shall also apply if RTS carries out delivery without reservation in the knowledge of conflicting or deviating terms and conditions of the Buyer.

1.3 These GTC shall also apply to all future transactions with the Buyer, even if they are not expressly agreed upon again.

§ 2 Conclusion of Contract

2.1 Offers made by RTS are non-binding and without obligation, unless they are expressly designated as binding or contain a specific period for acceptance. RTS is entitled to accept a contractual offer contained in an order placed by the Buyer within two weeks of receipt.

2.2 The contract shall only be concluded upon order confirmation in text form (see § 9) or upon delivery by RTS. The conclusion of the contract is subject to RTS receiving correct and timely delivery from its own suppliers. The contract concluded in accordance with the above principles, including these GTC, shall be solely authoritative for the legal relationship between RTS and the Buyer.

2.3 Drawings, illustrations, dimensions, weights or other performance data in offers, brochures, catalogues, data sheets and other documents are only binding if this has been expressly agreed in writing. RTS does not assume any liability for the accuracy, completeness and correctness of such information.

§ 3 Subject Matter of the Contract

3.1 Type Changes. If the contract relates to products that are subject to technical development, RTS is entitled to deliver the most current type, provided the Buyer's interest is not clearly limited to the ordered type. The Buyer is obliged to inform RTS if no deviation from the ordered type is permitted under any circumstances. RTS will notify the Buyer of material changes to the product specification, insofar as these are known to RTS.

3.2 Quantity Deviations. For products whose manufacturing process does not permit an exact quantity in units or measure (in particular metre goods, cut or cut-to-length goods), RTS reserves the right to charge for over-deliveries of up to 10%. In all other cases, RTS shall deliver the ordered quantity.

§ 4 Blanket Orders

4.1 For blanket orders, the call-off by the Buyer shall be made, unless otherwise agreed, taking into account the respective replenishment lead time.

4.2 Blanket orders shall, as a general rule, be agreed with a binding call-off schedule (dates and quantities). If no call-off schedule has been agreed, the call-off must be made no later than twelve months from the date of conclusion of the contract. After the expiry of a reasonable grace period set by RTS in writing, RTS shall be entitled, at its own discretion, to deliver the goods and issue an invoice, to withdraw from the contract, or to claim damages for non-performance.

§ 5 Prices and Payment Terms

5.1 The prices stated in the order confirmation shall apply. All prices are quoted net ex warehouse, plus packaging, freight, insurance, customs duties and the applicable statutory value added tax and other public charges.

5.2 Processing Surcharges. If goods to be delivered by RTS are processed on behalf of the Buyer (e.g. terminals bent or cut, removed from tape, re-spooled), RTS shall charge quantity-independent set-up cost surcharges and quantity-dependent processing surcharges.

5.3 Price Adjustment. Insofar as delivery is not scheduled until more than four months after conclusion of the contract or, in the case of ongoing business relationships, after the individual order confirmation, and within this period significant cost factors demonstrably and unforeseeable change substantially, in particular raw material prices, purchase prices, transport costs, customs duties, exchange rates or manufacturer prices, RTS shall be entitled to adjust the agreed price to the extent that actual costs change. RTS shall reduce the price if external costs beyond the control of RTS change or cease to apply. RTS shall inform the Buyer without undue delay of the nature, extent and reasons for the price adjustment and shall, upon request, substantiate this in a comprehensible manner. The price adjustment shall require the express consent of the Buyer. The Buyer may declare its consent in text form. If the Buyer fails to declare consent, the originally agreed price shall remain unchanged. If the Buyer objects to the price adjustment or does not declare consent within a period of 14 calendar days after receipt of the notification, the parties shall negotiate an adjustment of the contractual terms without undue delay. If no agreement is reached within a reasonable period of no more than 6 weeks after receipt of the objection, RTS shall be entitled to withdraw from the contract with respect to the unfulfilled part by declaration in text form.

5.4 Payment Terms. Invoices of RTS are due immediately and payable without deduction, unless deviating payment terms have been agreed in writing. All bank charges, transfer fees and costs of intermediary correspondent banks incurred in connection with payment shall be borne by the Buyer. For international payments, the Buyer shall instruct the transfer so that all charges are borne by the Buyer (charge instruction "OUR"). Credits shall only be deemed payment in the amount actually and unconditionally received by RTS. If, after deduction of bank charges, there is a shortfall compared to the invoice amount, this shall be settled by the Buyer upon first demand.

5.5 In the event of default in payment, RTS shall be entitled to charge default interest at the statutory rate as well as reasonable dunning costs.

5.6 RTS shall be entitled at any time to make a delivery subject to concurrent payment or to advance payment by the Buyer.

5.7 All claims of RTS shall become due immediately if agreed payment terms are not met or if the Buyer's financial circumstances deteriorate significantly.

§ 6 Delivery and Delay in Delivery

6.1 Delivery dates and periods are only binding if they have been confirmed by RTS in writing as binding. Even bindingly agreed dates are not fixed dates (Fixtermine) unless they have been expressly designated as such. Insofar as shipment has been agreed, delivery periods and delivery dates shall, unless expressly stated otherwise by RTS, refer to the time of handover to the freight forwarder, carrier or other third party commissioned with the transport.

6.2 Compliance with agreed fixed dates is subject to correct and timely self-delivery. RTS shall be released from its delivery obligation in respect of fixed dates insofar as RTS has, through no fault of its own, not been supplied in time with the goods ordered for the Buyer (so-called congruent covering transaction).

6.3 RTS shall be entitled to make partial deliveries, provided this is reasonable for the Buyer, in particular if the partial delivery is usable for the Buyer within the contractual purpose, the delivery of the remaining ordered goods is ensured and the Buyer does not incur any significant additional expense or additional costs as a result (unless RTS declares its willingness to bear such costs).

6.4 In the event of delivery delays due to force majeure or other circumstances beyond the control of RTS that were unforeseeable at the time of conclusion of the contract (in particular operational disruptions of all kinds, strikes, shortage of labour, energy or raw materials, official measures, pandemics, allocation by manufacturers, failure to receive, incorrect or untimely delivery from

suppliers despite a congruent covering transaction concluded by RTS), the delivery period shall be extended accordingly. RTS shall inform the Buyer of such circumstances without undue delay. Insofar as such events make the delivery or service significantly more difficult or impossible for RTS and the impediment is not merely of a temporary nature, RTS shall be entitled to withdraw from the contract.

6.5 Claims for damages by the Buyer due to delay in delivery shall be limited to 0.5% of the price for each completed week of delay, but in total to no more than 5% of the price for the part of the delivery that could not be put to its intended use as a result of the delay. Any further claims shall be governed by § 11 of these GTC.

6.6 Default in Acceptance. If the Buyer fails to accept the goods at the agreed delivery date or if acceptance is delayed for reasons attributable to the Buyer, the Buyer shall be in default of acceptance. RTS shall be entitled to store the goods at the expense and risk of the Buyer and to charge a reasonable storage fee. Further statutory claims shall remain unaffected.

§ 7 Passing of Risk

7.1 Unless deviating delivery terms have been agreed in writing in the individual case, the risk of accidental loss and accidental deterioration of the goods shall pass to the Buyer upon handover to the freight forwarder, carrier or other person designated to carry out the shipment. This shall also apply in the case of carriage-paid delivery and partial deliveries.

7.2 If shipment is delayed due to circumstances attributable to the Buyer, the risk shall pass to the Buyer from the day on which the goods are ready for dispatch.

7.3 RTS maintains a current transport insurance policy. Insurance coverage exists within the framework of the applicable maximum insured amounts per consignment and means of transport. RTS shall be entitled to divide consignments into several packages or shipments in order to comply with the insured maximum amounts, insofar as this is necessary to ensure full insurance coverage. The division shall be made at RTS's reasonable discretion, taking into account the Buyer's interests, in particular the avoidance of unnecessary costs and delays.

§ 8 Retention of Title

8.1 RTS retains title to the delivered goods (hereinafter "Reserved Goods") until full payment of all current and future claims arising from the ongoing business relationship between RTS and the Buyer. The Buyer shall store the Reserved Goods free of charge for RTS.

8.2 The Buyer is entitled to process and resell the Reserved Goods in the ordinary course of business until the enforcement event occurs (see paragraph 9). Pledging and assignment by way of security are not permitted.

8.3 Processing or transformation of the Reserved Goods by the Buyer shall always be carried out in the name and on behalf of RTS and RTS shall directly acquire title to the newly created item. If the Reserved Goods are processed, combined or mixed with other items not belonging to RTS, RTS shall acquire co-ownership (fractional ownership) of the new item in proportion to the value of the Reserved Goods to the value of the new item at the time of processing. In the event that no such acquisition of title by RTS should occur, the Buyer hereby assigns to RTS as security its future title or – in the above-mentioned proportion – co-ownership of the newly created item. If the Reserved Goods are combined or inseparably mixed with other items to form a single item and one of the items is to be regarded as the principal item, so that RTS or the Buyer acquires sole ownership, the party to whom the principal item belongs shall transfer to the other party pro rata co-ownership of the single item in the proportion stated in sentence 2.

8.4 In the event of resale of the Reserved Goods, the Buyer hereby assigns to RTS by way of security the resulting claim against the purchaser – in the case of co-ownership of the Reserved Goods by RTS, proportionally in accordance with the co-ownership share – to RTS. The same shall apply to other claims that take the place of the Reserved Goods or otherwise arise with respect to the Reserved Goods, such as insurance claims or claims arising from tortious acts in the event of loss or destruction. RTS revocably authorises the Buyer to collect the claims assigned to RTS in its own name. RTS may only revoke this collection authorisation in an enforcement event.

8.5 The Buyer shall notify RTS in writing without undue delay of any attachments or other encroachments by third parties on the Reserved Goods and shall immediately draw the attention of

third parties to the ownership of RTS in order to enable RTS to enforce its ownership rights. Insofar as the third party is unable to reimburse RTS for the court or out-of-court costs incurred in this connection, the Buyer shall be liable to RTS for such costs.

8.6 RTS undertakes to release the securities to which it is entitled at the Buyer's request insofar as the realisable value thereof exceeds the claims to be secured by more than 150%. The selection of the items to be released shall be at the discretion of RTS.

8.7 The taking back of the Reserved Goods by RTS shall not constitute a withdrawal from the contract, unless RTS expressly so declares.

8.8 The Buyer shall inform RTS without undue delay if it intends to take the Reserved Goods to a location outside Germany and the Buyer shall assist RTS in taking such measures as are necessary to make this retention of title effective and enforceable in the respective foreign jurisdiction.

8.9 If RTS withdraws from the contract due to conduct of the Buyer in breach of contract – in particular default in payment – (enforcement event), RTS shall be entitled to demand the return of the Reserved Goods.

§ 9 Electronic Communication

9.1 Declarations and notifications having legal effect in the context of the business relationship may be made in text form (Textform within the meaning of § 126b BGB). Transmission by e-mail, EDI or VMI satisfies the text form requirement and is legally binding, unless these GTC expressly require written form (Schriftform).

9.2 This applies in particular to order confirmations, invoices, notices of defects, cancellations and other contract-related communications.

§ 10 Notice of Defects and Warranty

10.1 The Buyer is obliged to inspect the goods immediately upon receipt in accordance with § 377 of the German Commercial Code (HGB) and to notify any apparent defects without undue delay in text form. If timely notice is not given, the goods shall be deemed approved. Hidden defects shall be reported without undue delay after discovery in text form.

10.2 The warranty period shall be one year from delivery of the goods. This period shall not apply to claims for damages by the Buyer arising from injury to life, body or health or from intentional or grossly negligent breaches of duty by RTS or its vicarious agents, which shall in each case become statute-barred in accordance with the statutory provisions.

10.3 In the event of a justified and timely notice of defects, RTS shall, at its own discretion, provide subsequent performance by way of repair or replacement delivery. If subsequent performance fails after a reasonable period or is impossible, the Buyer may, in accordance with the statutory provisions, reduce the purchase price or withdraw from the contract.

10.4 Guarantees in the legal sense are not assumed by RTS. Any manufacturer guarantees shall remain unaffected.

10.5 The warranty shall not apply if the Buyer modifies the delivered item without the consent of RTS or has it modified by third parties and the rectification of defects is thereby rendered impossible or unreasonably more difficult. In any event, the Buyer shall bear the additional costs of rectification of defects arising from the modification.

10.6 In the case of defects in components of other manufacturers which RTS cannot remedy for licensing or factual reasons, RTS shall, at its own discretion, assert its warranty claims against the manufacturers and suppliers on the Buyer's behalf or assign them to the Buyer. Warranty claims against RTS shall, in the case of such defects, subject to the other prerequisites and in accordance with these GTC, only exist if the judicial enforcement of the above-mentioned claims against the manufacturer and supplier was unsuccessful or is, e.g. due to insolvency, without prospect of success. The limitation period of the relevant warranty claims of the Buyer against RTS shall be suspended for the duration of the legal proceedings.

10.7 Claims for damages in connection with defects shall be governed exclusively by the provisions of § 11 of these GTC. This shall not apply to claims for damages by the Buyer arising from injury to life,

body or health or from intentional or grossly negligent breaches of duty by RTS or its vicarious agents, which shall in each case become statute-barred in accordance with the statutory provisions.

§ 11 Limitation of Liability

11.1 The liability of RTS, irrespective of the legal grounds, in particular for defects, breach of principal and ancillary obligations arising from the contractual relationship, impossibility or tortious acts, shall be excluded insofar as fault is a prerequisite in each case.

11.2 The exclusion of liability pursuant to paragraph 1 shall not apply in the case of intent or gross negligence on the part of RTS, its legal representatives or vicarious agents. The exclusion shall further not apply in the case of guaranteed quality characteristics or injury to life, body or health, or for claims under the German Product Liability Act (Produkthaftungsgesetz).

11.3 In the event of a slightly negligent breach of material contractual obligations (cardinal obligations), RTS's liability shall be limited in amount to the damage that was foreseeable and typical for the contract at the time of conclusion of the contract. Material contractual obligations are those whose fulfilment is essential for the proper performance of the contract and on whose compliance the Buyer may regularly rely.

11.4 Liability for loss of profit and indirect damages shall be excluded in cases of simple negligence.

11.5 The above liability provisions do not involve a reversal of the burden of proof.

11.6 The above exclusions and limitations of liability shall apply to the same extent in favour of the organs, legal representatives, employees and other vicarious agents of RTS.

11.7 Insofar as RTS provides technical information or acts in an advisory capacity and such information or advice does not form part of the contractual scope of services owed by RTS, this shall be provided free of charge and to the exclusion of any liability.

§ 12 Transport Packaging and Other Non-System-Participation-Obligatory Packaging

12.1 The Buyer shall assume the obligation to subject the transport packaging and other packaging not subject to system participation obligations delivered by RTS within the meaning of § 39 para. 1 sentence 1 no. 1 of the German Packaging and Waste Disposal Act (VerpackDG) (in particular cardboard packaging, filling material, pallets and strapping) after use, at its own expense, to proper reuse, recycling or disposal in accordance with the requirements of the applicable packaging and waste legislation (in particular the VerpackDG and Regulation (EU) 2025/40 – PPWR). RTS shall have no obligation to take back such packaging.

12.2 The Buyer shall indemnify RTS against all costs and expenses related to the return, recycling and disposal of such packaging as well as against claims of third parties, including official orders, measures and procedural costs, unless such costs are attributable to an intentional or grossly negligent breach of duty by RTS.

12.3 The Buyer shall, upon request, provide RTS with evidence of proper recycling or disposal (in particular disposal certificates or recycling contracts) and shall promptly provide RTS with the information required for its statutory documentation, reporting and verification obligations under § 39 para. 3 VerpackDG (in particular material type and mass of the packaging).

12.4 Insofar as the complete transfer of the obligation under paragraph 1 is impermissible under the respectively applicable statutory provisions or RTS remains legally obliged to take back the packaging, the Buyer may return used, emptied packaging of the same type, shape and size free of charge upon one of the next deliveries.

§ 13 REACh / RoHS

13.1 RTS operates in accordance with the EU requirements of the REACh Regulation (EC) No. 1907/2006 as well as the RoHS Directive 2011/65/EU and the Delegated Directive (EU) 2015/863 in their respectively applicable versions.

13.2 The information on material composition and substance compliance provided on the business documents and in other documents of RTS is based on manufacturer specifications. RTS does not assume any guarantee or liability for the accuracy, completeness and timeliness of such information.

Liability is excluded – irrespective of the legal grounds – to the extent that mandatory liability does not apply under § 11 of these GTC, in particular in the case of intent, gross negligence and injury to life, body or health.

§ 14 Intellectual Property Rights

14.1 The products distributed by RTS may be subject to industrial property rights or intellectual property rights of third parties (e.g. patents, trademarks, copyrights).

14.2 No ownership or usage rights in respect of such intellectual property rights shall be granted to the Buyer by RTS, with the exception of the right to use or resell the products in the ordinary course of business.

14.3 It shall be the Buyer's responsibility to inform itself about the licensing and usage conditions as well as any applicable licence fees of third parties and to acquire these where necessary.

§ 15 Prohibited and Safety-Critical Applications

15.1 The products delivered by RTS must not be used for the development, manufacture or operation of biological, chemical or nuclear weapons or their delivery systems.

15.2 For safety-critical applications – in particular in medical technology, defence technology, the automotive industry, aviation, aerospace, life-support or life-extension systems, human implants or other applications in which a product failure or malfunction is capable of causing personal injury, death, severe property or environmental damage or other catastrophic consequential damage – it shall be solely the Buyer's responsibility to independently verify and ensure the suitability of the products delivered by RTS for the intended purpose. RTS does not assume any warranty for the suitability of the products for such applications.

15.3 The Buyer is obliged to inform RTS of the intended use of the products in safety-critical applications pursuant to paragraph 2 before conclusion of the contract. The use of the products in such applications shall be exclusively at the Buyer's own risk and liability. The Buyer shall indemnify RTS against all claims of third parties resulting from such use.

§ 16 Export Control and Compliance

16.1 The Buyer undertakes to comply with all applicable export control regulations, in particular those of the European Union, the Federal Republic of Germany and the United States of America.

16.2 The Buyer shall not deliver the products supplied by RTS, either in whole or in part and either directly or knowingly indirectly, to persons and/or organisations and/or to states (collectively "Sanctioned Transaction") insofar as the Sanctioned Transaction violates sanctions regulations. Sanctions regulations means any applicable economic or financial sanctions, laws, regulations, embargoes or restrictive measures imposed, enacted or enforced by the authorities of the United Nations, the European Union, His Majesty's Treasury, an EU member state or a US federal authority (e.g. sanctions lists).

16.3 RTS shall be entitled to withdraw from the contract if export restrictions exist or are to be expected and the performance of the contract would be jeopardised thereby.

16.4 The Buyer shall indemnify RTS against all claims of third parties resulting from the Buyer's violation of export law regulations.

§ 17 Procurement under Supplementary Agreement

17.1 For components where a distribution channel other than the manufacturer's official distribution channel is used in procurement and which RTS procures on behalf of the Buyer, the General Terms and Conditions of Sale and Delivery – Supplementary Agreement of RTS in their respectively applicable version shall apply additionally.

17.2 The Supplementary Agreement governs in particular deliveries of goods discontinued by the manufacturer (EOL/LTB), goods with a date code older than 48 months, and goods for which RTS cannot provide verified information on the original source.

17.3 A contract for procurement under a Supplementary Agreement shall only be concluded when the Buyer accepts the offer including the Supplementary Agreement and both parties confirm the Supplementary Agreement in text form.

§ 18 Set-Off and Right of Retention

18.1 The Buyer may only set off against undisputed or legally established counterclaims.

18.2 The Buyer shall only be permitted to exercise a right of retention insofar as it is based on the same contractual relationship and the underlying counterclaims are undisputed or have been legally established.

§ 19 Confidentiality

19.1 The Buyer undertakes to treat confidentially all non-publicly known information made accessible to it in the context of the business relationship – in particular prices, terms and conditions, technical data and know-how of RTS – and not to disclose such information to third parties without the prior written consent of RTS.

19.2 The obligation of confidentiality shall not apply to information that is or becomes publicly known without the Buyer being responsible for this, or whose disclosure is required by law.

19.3 The obligation of confidentiality shall continue beyond the termination of the business relationship.

§ 20 Data Protection

RTS processes personal data of the Buyer in the context of contract performance in accordance with the applicable data protection regulations, in particular the GDPR. Further information on data processing can be found in the privacy policy of RTS in its respectively applicable version on the RTS website.

§ 21 Jurisdiction, Applicable Law

21.1 The place of jurisdiction for all disputes arising from or in connection with the business relationship shall be Recklinghausen, Germany. RTS shall furthermore be entitled to bring an action at the Buyer's registered office. Mandatory statutory provisions on exclusive jurisdictions shall remain unaffected by this provision.

21.2 The law of the Federal Republic of Germany shall apply to the exclusion of the UN Convention on Contracts for the International Sale of Goods (CISG).

§ 22 Severability Clause

Should any provision of these GTC be or become wholly or partially invalid, the validity of the remaining provisions shall remain unaffected. The invalid provision shall be replaced by a valid provision that comes as close as possible to the economic purpose of the invalid provision.

RTS Electronic GmbH

Waltrop, October 2026

General Terms and Conditions of Sale and Delivery
of RTS Electronic GmbH
– Supplementary Agreement –

As of: October 2026

§ 1 Scope of Application

1.1 This Supplementary Agreement (hereinafter "GTC Supplementary Agreement") to the General Terms and Conditions of Sale and Delivery of RTS Electronic GmbH (hereinafter "GTC") shall apply to the cases referred to in § 17 of the GTC (hereinafter "Procurement under Supplementary Agreement").

1.2 Unless otherwise provided in the GTC Supplementary Agreement, the GTC in their respectively applicable version shall apply to the business relationship between RTS and the Buyer.

§ 2 Conclusion of Contract

2.1 A contract for procurement under a GTC Supplementary Agreement shall only be concluded when the Buyer accepts the offer including the GTC Supplementary Agreement and both parties confirm the GTC Supplementary Agreement in text form (cf. § 17.3 GTC).

2.2 The Buyer is obliged to provide RTS with all information relevant to the procurement under Supplementary Agreement for the product to be procured, in particular the exact technical specification and, where possible, the manufacturer and manufacturer part number.

§ 3 Successive Delivery, Call-Off Orders

3.1 In the context of procurement under Supplementary Agreement, availability of the respective product for subsequent orders can only be assured if and to the extent that this has been expressly confirmed in writing by RTS.

3.2 Cancellation or rescheduling of an order confirmed by RTS is not possible by the Buyer.

3.3 In the case of repeated delivery of a product, RTS is not obliged to notify the Buyer that a product may no longer be available in the future. Any information nevertheless provided serves purely for the Buyer's convenience and shall not create any binding effect or legal obligation for RTS.

§ 4 Limitation of Liability

4.1 For the avoidance of doubt, § 11 of the GTC (Limitation of Liability) shall apply to procurement under Supplementary Agreement (cf. § 1.2 GTC Supplementary Agreement).

4.2 Insofar as RTS is unable to obtain reliable information on the original source of the requested product (hereinafter "Origin Information"), RTS shall notify the Buyer accordingly. If the Buyer accepts such an offer, Origin Information shall not form part of the contract. Any liability of RTS in this regard, irrespective of the legal grounds, in particular for defects, breach of principal and ancillary obligations arising from the contractual relationship, impossibility or tortious acts, shall be excluded insofar as fault is a prerequisite in each case. § 11.2 of the GTC shall apply mutatis mutandis.

4.3 Under no circumstances shall RTS be liable for the suitability of the goods for the Buyer's purposes.

4.4 Insofar as liability claims of the Buyer against RTS are excluded, RTS shall endeavour to assert any claims of its own against its upstream supplier in the interest of the Buyer. The Buyer shall have no right to the assignment or judicial enforcement of such claims.

§ 5 Goods Assessment / Obligation to Give Notice of Defects

5.1 The Buyer is aware that this is a procurement under Supplementary Agreement. The Buyer is obliged to inspect the goods immediately upon receipt in accordance with § 377 of the German Commercial Code (HGB) and to notify any apparent defects without undue delay, but no later than within 10 business days after receipt of the goods, in text form. In the inspection pursuant to § 377

HGB, the Buyer shall take into account the circumstance of procurement under Supplementary Agreement. If timely notice is not given, the goods shall be deemed approved. Hidden defects shall be reported without undue delay after discovery in text form.

5.2 The Buyer shall submit the results of the aforementioned inspections to RTS within 10 business days after receipt of the goods by presenting the signed document "Release – Components under Supplementary Agreement". With this release, the Buyer declares to RTS that there are no complaints regarding the delivered goods.

5.3 Should the aforementioned inspections reveal that the goods are defective and the Buyer is, subject to § 11 of the GTC and § 4 of the GTC Supplementary Agreement, entitled or obliged to return the goods, the Buyer must notify RTS of this within a maximum of 3 business days after completion of the inspections and return the goods to RTS within a maximum of 3 further business days.

§ 6 Severability Clause

Should any provision of this GTC Supplementary Agreement be or become wholly or partially invalid, the validity of the remaining provisions shall remain unaffected. The invalid provision shall be replaced by a valid provision that comes as close as possible to the economic purpose of the invalid provision.

RTS Electronic GmbH
